

The Art in Water Saving

Stainless steel body for durable performance

Three stainless steel tips for ultra-efficient cleaning

Low impact rotating rubber nose cone allows quick spray pattern changes

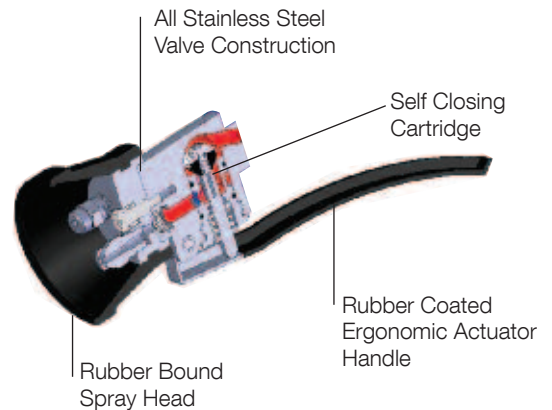

Triple Force™

A revolutionary new instrument for the kitchen.

The **Triple Force™** from Chicago Faucets is a patented pre-rinse spray specifically designed for **superior water conservation, ultra-high performance, and industry-leading reliability.** The Triple Force has been specifically designed to save time and substantially reduce energy and water costs for restaurants, commercial kitchens, and institutions. The unique three-tip nozzle handles everything from baked-on sauce to the gentle rinsing of fine stemware. The Triple Force can be purchased separately to install on your existing Chicago Faucets pre-rinse products or is available as an alternative spray on all complete pre-rinse fittings.

Triple Force Pre-Rinse Spray

- Model 99TF

Triple Action

Ultra low-flow for superior water conservation. 0.92 gpm flow rate @ 60 PSI.

Design With Purpose

Triple Force™

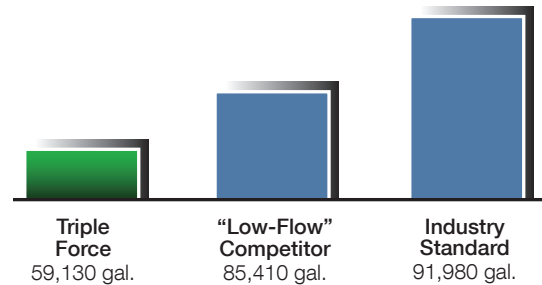

Model 99TF

Conservation and Savings

- The Triple Force provides superior water conservation without compromising product performance.
- Patented design allows user to set the product to 0.91 gpm flow rate that saves water and maintains work efficiency.
- Compared to the industry standard, the Triple Force **reduces water usage and utility expenses by almost 40%***.

* Based on 3 hours of daily usage and industry average utility costs, industry standard 1.42 gpm, and "low-flow" competitor rate of 1.28 gpm.

Annual Water Usage

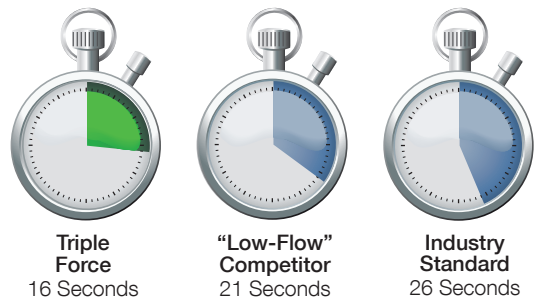

Work Time Reduction

Quite often, a reduced flow rate results in less performance and more cleaning time. Saving on one side and spending more on the other puts you at the same place you started.

- The Triple Force valve has incredible cleaning capability that greatly reduces the time needed to complete the job.
- The Triple Force **reduces cleaning time by almost 40%** when compared to the industry standard and is almost 30% faster than a leading competitor.

Faster Cleaning Performance

Down Time Reduction

Frequent spray replacement and the down time it causes can be costly. The Triple Force has been designed to meet and exceed the current market conditions and requirements, and to be the most durable spray in the industry.

- The Triple Force is backed by Chicago Faucets' industry leading **5-Year Warranty** against manufacturing defects.

Exceptional Warranty

Every Application

Not every kitchen is the same and not every day in the kitchen is alike. The Triple Force is designed to meet any cleaning challenge you will face.

- The Triple Force features a patented multiple spray nozzle system that allows the user to change patterns effortlessly to complete almost any cleaning job.

Three Spray Patterns
