Chicago Faucets, a member of the Geberit Group, is the leading brand of commercial faucets and fittings in the United States, offering a complete range of products for schools, laboratories, hospitals, office buildings, food service, airports, and sports facilities. Whatever your requirements may be, Chicago Faucets offers standard and made-to-order products that are designed to meet any commercial application.

We are a member of the U.S. Green Building Council and support the Leadership in Energy and Environmental Design (LEED) Green Building Rating System™, to measure the efficiency and sustainability of buildings in the U.S. and Canada. If you are trying to achieve LEED Certification for your building, our line of safety, rinsing cartridges, and incorporated faucets can contribute points in these areas: Water Efficiency Credit 2: Innovative Wastewater Technologies and Water Efficiency Credit 3: Water Use Reduction.

Safety Products
Durable Construction, Reliable Performance

- Extreme Durability
  - Brass, Galvanized steel pipe, or ABS reinforced plastic used for waterways
  - Galvanized pipe is coated with a highly durable plastic to prevent corrosion
- Easy Visibility
  - Our safety fittings feature a high-visibility yellow color scheme
  - Photo luminescent signage for easy identification
- Safe, Reliable Operation
  - Low-pressure aerated outlets designed to comfortably flush face and eyes
  - Eyewash outlets feature rounded contours for added safety
  - Dust covers move out of the way automatically when activated
  - Anti-splash valves prevent obstruction, even after long periods of inactivity
  - Drench shower heads resist lime scale or other contaminants
- Built-in Compliance
  - Tested and certified to meet the ANSI Z358.1 Standard for Emergency Eyewash and Shower Equipment
- Products When You Need Them
  - Same day shipping available on orders received before 12:00 p.m. CST

Combination Eyewash Faucet

- Dual aerated spray heads with flip top caps
- Thermostatic (cold water) spray heads between uses and flip off automatically when activated. The 0.3 GPM cold flow rate provides half- and full-size columns for cool use.

Durable and reliable construction
- Chicago Faucets durable brass construction; reliable ceramic cartridge operation.

Faucet options
- 2 x 0.3 GPM aerated and 1.0 GPM air-charged flow rates.

Large push-handle for easy activation
- Wall-mounted push-handle design for easy activation during any emergency.

Separate water supply for eyewash
- Independent supply tee in convenient after connection to a ASSE 1071 supply line for eyewash to the cold water valve to provide user safety.

Eye/Face Wash

- Commercial quality paraffin actuator provides repeatable, reliable performance
- Internal cartridge style checks with screens to maintain actuation functionality
- 6.5 GPM flow rate for cold water bypass*
- 9.8 GPM flow rate for tempered water*

Wall Mounted Eye/Face Wash

- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel or ABS plastic
- High-flow aerated water spray heads operate at low pressure
- Automatic opening and dust covers

Floor Mounted Eye/Face Wash

- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel
- High-flow aerated water spray heads operate at low pressure
- Automatic opening and dust covers

Drench/Combination

- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel
- High-flow aerated spray heads operate at low pressure with automatic opening anti-dust cover
- Pull handle for activation

Thermostatic Mixing Valve with Cold Water Bypass

- 0.8 GPM flow rate for heated water
- 0.6 GPM flow rate for cold water bypass
- Internal cartridge style checks with screens to maintain actuation functionality
- Commercial quality paraffin actuator provides repeatable, reliable performance

Mixing Valves

- Model Description
  - Thermatic Mixing Valve
    - 132-134-LTFBF
      - Valve Only
      - 6.6 GPM
    - 132-134-LTFBF
      - Valve, Thermostatic Gauge
      - 6.6 GPM
    - 132-134-LTFBF
      - Valve, Thermostatic Gauge
      - 25 GPM
  - 132-134-LTFBF
    - Valve Only
    - 6.6 GPM
  - 132-134-LTFBF
    - Valve, Thermostatic Gauge
    - 25 GPM

- Model Description
  - Thermostatic Mixing Valve
    - 132-134-LTFBF
      - Valve Only
      - 6.6 GPM
    - 132-134-LTFBF
      - Valve, Thermostatic Gauge
      - 25 GPM

*GPM flow rates @ 30 PSID in accordance to ASSE 1071 as certified by IAPMO

Drench Shower

- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Faucet handle and wall mounted
- Pull rod for activation

Barrier Free, Eye/Face Wash and Drench Shower

- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel
- High-flow aerated spray heads operate at low pressure with automatic opening and dust covers
- Pull handle for activation
- Shower head in stainless steel
**Combination Eyewash and Faucet**

- Dual aerated spray heads with flip top caps
- Thermostatic cold and hot water bypass to allow separate control for emergency eyewash
- Commercial quality paraffin actuator provides fail-safe operation

**Faucet options**
- 2 in Chrome or 1.5 in color flow control handles

**Available models**
- **8401** Stainless Steel Bowl
- **8402** ABS Plastic Bowl
- **8403** ABS Plastic Shower Head
- **8408** Stainless Steel Shower Head

**Model Description**
- **8401-NF** Wheel Mounted
- **8402-NF** Wall Mounted
- **8403-NF** Wheel Chair Accessible

**Wall Mounted Eye/Face Wash**

- Anti-corrosive polypropylene 11 plastic coating in high visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel or ABS plastic
- Two high-flow aerated water spray heads operated at low pressure
- Automatic opening and dual covers

**Model Description**
- **8401-NF** Vertical Operation
- **8411-NF** Horizontal Operation

**Thermostatic Mixing Valve with Cold Water Bypass**

- **921** - 8.0 GPM
- **922** - 6.5 GPM
- **931** - Valve Only
- **932** - Valve, Shutoff, Gauge

**Drench/Combination**

- Anti-corrosive polypropylene 11 plastic coating in high visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel or ABS plastic
- Two high-flow aerated water spray heads operated at low pressure
- Automatic opening and dual covers

- **930-ABMF** Valve Only
- **930-HMF** Valve, Thermostatic Gauge
- **930-LMF** Valve, Shutoff, Gauge
- **930-HSTABMF** Valve, Shutoff, Temperature Gauge
- **930-LSTABMF** Valve, Shutoff, Temperature Gauge

**Wheel Chair Accessible**

- Stainless Steel Shower Head

**Model Description**
- **923** Stainless Steel Shower Head
- **924** ABS Plastic Shower Head

**Therm一股 Mixing Valve with Cold Water Bypass**

- **132-UMBF** Valve Only
- **132-LUMBF** Valve, Thermostatic
- **132-HUMBF** Valve, Shutoff, Gauge
- **132-LHSTABMF** Valve, Shutoff, Thermostatic Gauge
**Combination Eyewash Faucet**

- Dual aerated spray heads with flip top caps
- Chicago Faucets incorporate independently operated eyewash into the overall grommeted faucet. Available as a retrofit spout or with a choice of hand or single handle configurations. Faucet spout adds a new level of style and safety to any sink. Simply push to activate the two soft flow heads.

**Single Handle Combination Eyewash & Faucet**

- Solid brass, lead-free construction
- Fully functioning single control faucet with separate line for emergency eyewash
- Two high-flow aerated water spray heads operate at low pressure with automatic opening anti-dust covers

**Deck Mounted Eye/Face Wash**

- Anti-corrosive polyamide 11 plastic coating in high visibility yellow color
- Eyewash assembly in ABS plastic
- Two high-flow aerated spray heads operate at low pressure with automatic opening anti-dust covers

**Drench/Combination**

- 8.0 GPM flow rate for high visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel
- Eyewash assembly in ABS plastic
- Stainless steel shower head
- Horizontal wall mounted
- Pull handle for activation

**Thermosiphonic Mixing Valve with Cold Water Bypass**

- 8.0 GPM flow rate for high visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash assembly in ABS plastic
- Eyewash assembly in ABS plastic
- Eyewash assembly in ABS plastic
- Pull handle for activation
