EQ Series

Meet **the next generation** of touchless faucets.

TempShield[®]

Available with integrated ASSE 1070
compliant scald protection**

EQ Series

The **Next Generation** of touchless restroom faucets.

We took what we know about building the highest quality commercial faucets in the world and combined it with advanced electronics. The result? EQ Series, the next generation of touchless faucets: easy to install, easy to operate, and easy to maintain.

Durable Construction

Heavy-duty, one-piece solid brass spout and waterproof electronics.

Smart Outlet

Integrates electronics module, sensing eye, and aerator for a clean look and dependable operation.

Designed For Easy Installation

Braided stainless steel hose and electronics cable pre-installed for simple plug-and-play installation.

Compact Control Box

The EQ control box houses everything needed for operation including power, solenoid, mixing valve, and supply.

Versatile Design

Choose AC, DC, LTPS or SSPS to power the faucet.

Optional Long Term Power Supply uses a lithium ion cell to provide maintenance-free power for **15 years or more.**

Pick a style and finish that work **best** for your restroom.

Choose from two distinct spout styles in a choice of polished chrome or brushed nickel finish. Options available with a 4" or 8" cover plate.

Enhance safety, meet codes, and save time with integrated scald protection.

The available integrated ASSE 1070 thermostatic protection eliminates the need for a separate valve, helps meet codes, and reduces installation time:**

Codes & Standards

ASSE 1070 Certified* | Certified to NSF/ANSI 61, Section 9
ASME A112.18.1/CSA B125.1 Certified

Complies with ADA requirements as specified in the Americans with Disabilities Act.

*Products featuring integrated thermostatic protection only
