

## EBPS | Emergency Backup Power System

AC power with **continuous battery backup.**

### A Safeguard Against Power Outages.

Our AC powered touchless faucets with the Emergency Backup Power System (EBPS) provide uninterrupted touchless faucet operation in the event of a power outage.

### Quick Installation

Only two connections: plug EBPS into the AC adapter and backup battery pack under the sink or deck.

### Hassle-Free Operation

Backup batteries last up to 7 years before needing replacement.

### Intelligence Built In

EBPS Smart Sensor detects AC power loss and automatically switches to battery operation until power is restored.

#### Retrofit Kits available:

**EBPS-001JKNF** – Stand alone conversion kit for Bluetooth models\*

**EBPS-002JKNF** – Conversion kit with HyTronic Bluetooth module

**EBPS-003JKNF** – Conversion kit with E-Tronic Bluetooth module

\*Note: Bluetooth models are designated with a "T" at the end of the model number.

### Upgrade Your HyTronic® or E-Tronic® Faucets With EBPS.

In mission-critical facilities like hospitals, long-term care centers, and emergency facilities, power outages can be a matter of life and death. Chicago Faucets offers a wide selection of AC powered faucets with an Emergency Backup Power System. For more information, contact your local sales representative or visit our [website](#) to see all of our EBPS models.
