Alpina® Series

Works Beautifully

Same Elegant Design. **New and Improved Features.**

The slim, elegant profiles of Alpina® series faucets can enhance the look of any restroom. Our redesigned control box delivers a host of new options – including integral scald protection and innovative power supply choices – all neatly secured below-deck.

Alento

Avisio®

New Integral Scald Protection

All Alpina dual supply models now feature integral ASSE 1070 compliant thermostatic protection for added safety.

The **CF Connect** App provides a secure and easy way to adjust and maintain the faucet with a smartphone.

– Hygiene Flush eliminates stagnant water from the plumbing system and removes harmful bacteria
– Six field-adjustable modes for metering, water savings, and detection ranges
– Track Usage

CF CONNECT

New and Innovative Power Options

In addition to AC and DC, we now offer LTPS and SSPS power systems with Alpina faucets. Both deliver easy installation and maintenance-free performance.

Durable Construction

Heavy-duty, one-piece cast brass body with vandal resistant outlet is designed to withstand abuse and tampering.

New Quick-Connect Controller

Our slim profile, quick-connect controller provides easy electronics connection and allows the faucet to be operational in just minutes.

Power Options

LTPS
Long Term Power System
Maintenance-free for 15 years or more.

SSPS
Self Sustaining Power System
Uses flow of water to create and store power.

AC
Plug-In or Hard-Wire

DC
4 'AA' Batteries
