

Restroom Faucets

**Faucets For Lavatory
Applications**

Chicago Faucets

The best faucets for public restrooms.

We make the best commercial faucets in the world. Every one of our products is manufactured to the same high standard that has made us the top choice of professionals for over 120 years. Since 1901, we have influenced how every faucet in the world is made and designed with over 50 significant patents and industry innovations.

Our primary business is and always will be commercial faucets. No other manufacturer can match our quality, knowledge, and experience. So if you need a faucet for your restroom, Chicago Faucets is always your best option.

Built-in scald protection.

A number of products in this brochure feature built-in anti-scald technology available exclusively from Chicago Faucets.

Just look for the TempShield logo.

Built-in scald protection means:

- Faster installation and lower labor costs
- Fewer potential leak points
- A safer installation, every time

Why Chicago Faucets is the Right Choice for Your **Touchless Faucets.**

Our primary business is and always will be commercial faucets. This focus, combined with our commitment to quality, has made us experts on commercial applications and the number one choice of professionals for over a century. With Chicago Faucets, you can count on the highest quality, innovative features, and unparalleled support.

Look for the symbols below on our products and at chicagofaucets.com. They ensure you're getting the right faucets and fittings for your building.

ECAST Lead-Free brass construction

Durable and safe: one quarter of one percent (0.25%) or less total lead content by weighted average.

TempShield Scald Protection built-in

Meet code, reduce installation time with products featuring integrated ASSE 1070 compliant scald protection.

CF NOW! Quick Ship program

We're ready when you are with 3-day shipment on many products plus 24-hour and same day shipment availability.

BUY AMERICAN ACT COMPLIANT American-Made products

The majority of our products are manufactured or assembled in the United States and meet the requirements of the Buy American Act.

Unparalleled Support

We support our installed base of products, providing repair parts for products that are over 100 years old.

Water Savings

Metering faucets from Chicago Faucets have a self-closing mechanism that shuts off automatically.

Easy Installation

1/2" NPSM threads with tapered inlet make for quick and easy water connections.

Unsurpassed Durability

The solid brass, chrome-plated body is backed by a lifetime warranty.

HyTronic® With TempShield®

The Number One Choice for touchless faucets.

Our HyTronic® TempShield® Series touchless faucets set the standard for reliability and user comfort in commercial buildings everywhere. An exceptional detection system means the faucet turns on and off when it should; no run-ons or drop-offs.

- **Added Safety:** integral ASSE 1070 certified thermostatic protection to help prevent scalding
- **Easy to Install and Service:** electronic components are above-deck for faster installation and easier maintenance
- **Remote Programming:** use the **CF Connect** app to adjust and program your faucet for different operating modes.
- **Durable:** vandal resistant features combined with solid brass construction backed by a lifetime warranty on the body
- **Water Savings:** consistent operation, precise metering, and enhanced programming options can provide substantial water savings

Pick a style and finish that work best for your restroom.

We offer a choice of three distinct spout styles, including our popular gooseneck spout, to meet your needs.

A new solution for safe, touchless convenience.

Proven dependability and integrated **ASSE 1070 Certified Scald Protection** helps make HyTronic® touchless faucets the very best solution for safety and hygiene. Above-deck components and the CF Connect App combine for easy adjustment and maintenance.

Benchmark for Durability

Heavy duty cast brass construction with a refined polished chrome finish.

Easy to Service

All components are above-deck for easy access and routine maintenance without shutting off water.

Best Sensor In the Industry

Twin-beam infrared system responds quickly, adjusts to environmental changes, and minimizes false activations.

User Adjustable

Available with user **adjustable temperature control** for improved user experience.

Easy to Adjust

The CF Connect App provides a secure and easy way to adjust and maintain the faucet with a smartphone.

- Hygiene Flush eliminates stagnant water from the plumbing system and removes harmful bacteria
- Six field-adjustable modes for metering, water savings, and detection ranges
- Track Usage

Integrated ASSE 1070 Certified Scald Protection

Built-in scald protection means:

- Faster installation and lower labor costs
- Fewer potential leak points
- Safer installation, every time

A new option for **Safety** and **Performance**.

Integrated ASSE 1070 thermostatic protection.

Long Term Power System is maintenance-free for 15 years or more.

Integrated backup power system for AC faucets.

The next generation of electronic restroom faucets.

We took what we know about building the highest quality commercial faucets in the world and combined it with advanced electronics. The result? EQ, the next generation of electronic faucets: easy to install, easy to operate, and easy to maintain:

- **Built to Last:** heavy-duty cast brass spouts and high-quality electronic components
- **Plug-and-play Installation:** faucet is up and running in minutes, not hours
- **Match Any Public Restroom Décor:** three sleek, modern designs in two finishes
- **No Need to Program:** "learns" over time and adjusts for dependable performance
- **Saves Water:** superior user detection means EQ comes on when you approach
- **Sustainable Design:** all components are made from recyclable materials

Pick a style and finish that work best for your restroom.

Choose from 3 distinct spout styles in a choice of polished chrome or brushed nickel finish.

Matching touchless soap dispenser now available!

From top to bottom, a completely new faucet.

Durable construction

Heavy-duty, one-piece solid brass spout and waterproof electronics provide unsurpassed reliability.

Easy installation

Braided hose and electronics cable pre-installed for simple plug-and-play installation.

Smart outlet

Integrates electronics module, sensing eye, and aerator for a clean look and dependable operation.

Water conserving

Low flow outlets combined with smart technology help reduce water usage by as much as 77%.*

Compact control box

The heart of every EQ faucet, the EQ control box houses everything needed for faucet operation including power, solenoid, mixing valve, and supply.

Simple connections

Supply hoses are pre-installed for fast, easy connection to stops.

More control, less time.

EQ faucets with built-in Bluetooth® technology* can now be easily adjusted with a smartphone or tablet. The EQ Connect App provides diagnostics and allows you to make adjustments to the faucet's settings with the touch of a finger.

Options Designed for a **Safer** and **Easier** Experience.

Integrated ASSE 1070 thermostatic protection.

Long Term Power System is maintenance-free for 15 years or more.

Self Sustaining Power System uses the flow of water to create power.

* Comparison is based on using EQ faucet with a 0.5 GPM outlet to replace a faucet with a 2.2 GPM outlet. Water savings is based on 40 seconds of usage. The faucet with a 2.2 GPM flow rate would use 1.47 gallons of water while the EQ faucet would use .33 gallons of water.

E-Tronic® 80

Contemporary design **with touchless convenience.**

The E-Tronic® 80 offers a contemporary design option for commercial restroom applications. With above-deck electronics, including models with integrated scald protection, the E-Tronic 80 eliminates clutter below the deck to enhance the overall design of the room.

- **Versatile Design:** available with single or dual supply. Dual supply features user adjustable temperature control. Easily convert to concealed control with included vandal resistant chrome plated cap
- **Water Savings:** adjustable run time with vandal resistant outlet options from .35 to 1.5 GPM
- **Easy to Install and Service:** electronic components are above-deck for faster installation and easier maintenance
- **Added Safety:** available with integral ASSE 1070 compliant thermostatic protection to help prevent scalding
- **Remote Programming:** use the **CF Connect** app to adjust and program your faucet for different operating modes. .

The complete solution.

Above-deck electronics and integrated scald protection* make the E-Tronic 80 easy to select, easy to specify, and easy to install in any commercial restroom application.

Pair the faucet with a **matching touchless soap dispenser** for the ultimate in restroom hygiene and convenience.

Available with **built-in ASSE 1070 certified scald protection.**

- Built-in scald protection means:
- Faster installation and lower labor costs
 - Fewer potential leak points
 - Safer installation, every time

* US Patent No. 11,697,929

E-Tronic® 40

Durable and reliable **with remote programming.**

The E-Tronic 40 is a great option for your restroom with advanced technology for dependability, convenience and water savings. The hermetically sealed, above-deck electronics offer easy maintenance and long-term reliability.

- **Advanced Technology at an Affordable Price:** bring state-of-the-art electronics to any restroom
- **Water Savings:** precise metering, low-flow outlets, and enhanced programming options can provide substantial water savings
- **Flexible, Convenient:** perform routine maintenance without shutting off water
- **Durable:** spout and belly plate feature durable metal construction for long life
- **Remote Programming:** use the CF Connect app to adjust, and program your faucet for different operating modes

Download **CF Connect** from the App Store or Google Play and use a smartphone or tablet to communicate with your E-Tronic® 40 faucet via Bluetooth®.

Scan for more information or visit chicagofaucets.com/cfconnect

A Hard Working Overachiever.

The EVR Series combines the added safety and convenience of touchless operation with the durability of a heavy-duty, one-piece cast brass body. Power options and mixing – including integrated scald protection – are concealed in a secure, compact control box.

- **Improved User Experience:** higher and longer spout reach combined with dependable electronics, improving the user experience
- **Durable Construction:** heavy-duty, one-piece cast brass body with vandal resistant outlet designed to withstand abuse and tampering
- **Secure, Compact Control Box For Any Application:** conceals and secures power, solenoid, mixing valve, and supply in a compact box; see page 5 for control box details
- **Added Safety:** available with integral ASSE 1070 compliant thermostatic protection to help prevent scalding

404/405 Series

High style meets commercial quality.

Our 404 and 405 Series solid brass spouts combine sleek styling with an integrated shank for extreme durability. Available with a choice of handles, flow rates, and models with pop-up drain.

Two Mounting Options For Added Versatility

Concealed Deck With One-Piece Body

Installs in just minutes, but lasts a lifetime.

- Solid, one-piece cast brass body for precise alignment and extra strength
- Faster, one-person installation with fewer parts and pre-assembled components

Concealed Deck With Adjustable Centers

Flexible hoses allow for almost unlimited handle placement.

- Easy and extremely flexible installation
- Handle placement within 6" to 26" from the spout center

2200 Series

Marathon™ 2200 Series

Heavy duty, proven performance.

You'll feel the difference of the 2200 Series the first time you hold it. Heavy duty, solid brass construction is combined with ceramic valve design to deliver a faucet that can stand up to years of use and abuse. The 2200 Series offers single control convenience and unsurpassed durability.

- **Durable:** the most durable single control faucet on the market with solid brass construction backed by a lifetime warranty on the body
- **Reliable:** proven ceramic mixing cartridge with adjustable hot water limit stop to reduce chance of scalding injuries
- **Easy to Install:** with 3/8" compression flexible stainless steel supply hoses

410-T/420-T Series

TempShield® Integrated scald protection.

The 410-T and 420-T Series combine Chicago Faucets durability and water saving design with TempShield scald protection. The result is an efficient, easy-to-install restroom faucet that complies with ASSE 1070 requirements. Now there's no need to install a separate thermostatic mixing valve below the sink. With the 410-T and 420-T, everything you need to meet current building codes and protect users against scalding is built right into the faucet.

- **Safety:** an integral thermostatic control element meets the ASSE 1070 standard, to help prevent scalding and deliver water at a comfortable temperature.
- **Easy Installation:** integrated scald protection eliminates the need for a separate thermostatic valve, and 1/2" NPSM threads with tapered inlet make for quick water connections.
- **Reliable Operation:** high quality ceramic discs are tested up to 4.5 million full motions.
- **Water Savings:** outlet options from 1.5 to .35 GPM help support water conservation efforts.
- **Accessible Option:** long-handle models available for enhanced accessibility.

802 Series

802 Series

Curved design, with countless handle options.

These faucets combine durability with a graceful curving design. Choose manual operation with our time-tested Quatern™ operating cartridge or, for the ultimate in water savings, install an 802 model with our adjustable MVP® metering cartridge. Whichever you choose, you get reliable, trouble-free operation. The vandal resistant aerator and handles are standard equipment.

- **Modern Design at an Affordable Price:** an affordable, sleek look that complements almost any lavatory application
- **Water Savings:** the self-closing MVP® metering cartridge shuts off automatically; 0.5 GPM (1.9 L/min) outlet and easily adjustable cartridge provide even greater savings
- **Durable:** handle and non-aerating outlet resist tampering

3500 Series

A whole new level of style, convenience, and affordability.

The 3500 Series brings a new, modern look to our line of water conserving metering faucets. Easy to install, easy to operate, and easy on the budget, the 3500 can dramatically reduce water use when compared to older, conventional faucets.

- **Modern Design at an Affordable Price:** an affordable, sleek look that complements almost any lavatory application
- **Water Savings:** self-closing mechanism shuts off automatically; 0.5 GPM (1.9 L/min) outlet and easily adjustable cartridge provide even greater savings
- **Flexible, Convenient:** models available with user-adjustable external temperature control or concealed internal temperature control for added comfort and safety; models available with long-reach spout for added convenience
- **Durable:** handle and non-aerating outlet resist tampering
- **Easy to Install:** flexible stainless steel hoses are pre-installed and connect to standard water supplies; internal temperature control features above-deck access

Long-reach spout models available

3600 Series

MeterMix™ 3600 Series

An ideal choice for high-use, high-abuse locations.

The 3600 Series is an improved and expanded line of MeterMix™ sink faucets. Vandal resistant features are built right into the handle and outlet making it an ideal choice for high-use, high-abuse locations.

- **Convenience and Comfort:** long-reach spout with angled outlet keeps water in the sink and off the deck
- **Adjustability:** built-in user temperature control, plus installer-adjustable hot/cold water mixing
- **Reliable Operation:** MVP™ cartridge opens with one touch and closes automatically
- **Vandal Resistance:** tamper-proof aerators and handle secured with vandal-resistant screw
- **Water Savings:** adjustable cycle time and outlet options from .35 GPM to 1.5 GPM to meet building codes, state laws, or user preference
- **Easy Installation:** fully threaded mounting studs and pre-installed, flexible hoses allow installation in minutes

The Versatile Design Of Our Faucets Allows You To Update Our Products In Minutes!

3600 Series

Pick A Handle

We offer a wide selection of handles including lever, wristblade, canopy, cross, and push for metering cartridges.

Pick A Cartridge

Choose compression, ceramic, metering, or self-closing models with features that include integral check valve or the ability to adjust the water flow rate.
